The Shri Ram Wonder Years

Founded with the vision of creating a nurturing and stimulating environment where children can develop their natural curiosity, creativity, and love for learning, The Shri Ram Wonder Years has become a popular choice among parents who seek a high-quality early education for their children.

The Shri Ram Wonder Years is a preschool that ensures a safe, warm, happy and ever evolving environment for learners. With this underlying mission, the preschool facilitates an ongoing process of growth in a safe supportive & nurturing environment, where each child is valued for his/her unique personality.

TSWY believes in a strong partnership between the parent, child, and the school. The faculty at TSWY creates an intellectually engaging, nurturing environment in which each child's learning and development is promoted. The school understands that its responsibility is to channelize abilities of a child by facilitating the development of essential skill sets and learning styles.

At The Shri Ram Wonder Years, focus is on learning through play. It aims at fostering 'individuals' who are confident and have a positive approach to learning. The flexible approach allows each child the freedom to develop his/her own personality within the framework of the school format, thus walking out of the school with a sense of pride and confidence.

SHRI DIFFERENTIATORS

CIRCLE TIME

Class time wherein the Class Teacher uses this time to bond and connect with her students. This is also a time that is used to provide a platform for the issues and problems that arise within the class group. It is a great time to work towards instilling the Core Values of the school.

WONDER TIME

Wonder Time is a Discovery based learning process which encourages inquiry and kindles the spirit of curiosity. Children have innate curiosity to explore things around them. By providing many different materials to touch, observe and manipulate, they will learn to observe, record, infer and arrive at a conclusion.

CHOICE TIME ACTIVITIES

Children are free to move to different activity corners and choose to work on an activity of their choice. They could choose to look at a story book, play with blocks, draw or colour, play with dough and fulfill their curiosity in the discovery room.

SHARE AND TELL

Share and Tell is a teaching learning strategy used to develop language, confidence and presentation skills in early learners. Moving from structured to unstructured sessions, Share and Tell provides children a platform to speak amidst encouragement and positivity. This activity is the child's first step towards facing an audience and making a presentation, both of which are important skills out in the real world.

DEAR(Drop Everything and Read)

DEAR (Drop Everything and Read) is a reading programme that has 10 minutes slotted in the time table where students literally Drop Everything and Read. The thought is to inculcate a love for books which have a far reaching impact on young minds.

The Reading Programme

The Reading Programme is a graded comprehensive reading programme which aims at developing effective readers not by chance but by design. A Closure activity is integral to this programme as it informs the teachers about the child's level of comprehension and gives the child an opportunity to express his/her views, think creatively, dramatize and make connections.

Environment Consciousness Programme

At TSWY we believe in inculcating a spirit of consciousness and responsibility among students towards the environment at a very early age. They are made aware of the role each individual plays in the nurturing the world of tomorrow.

Inclusiveness

Inclusiveness as a way of life. Children are encouraged to celebrate diversity and accept and embrace differences.

Theatre in Education

It is researched that education is better assimilated when it linked to personal & real life experiences. Role Play & Drama play a key role in helping students explore their curiosity and interpret their understanding of the world around them.

Let your

It is our conviction that true exploration and enlightenment occur when a young individual exudes jubilant reactions to their surroundings. At The Shri Ram Wonder Years, we strongly believe that parents are equal partners in the learning journey of their children. We understand that parents know their children best and their involvement can greatly enhance their child's development. Our programs are designed to encourage parental involvement in their child's education, with regular opportunities to connect with teachers and share insights about their child's progress. We value clear communication, both with parents and amongst our team, in order to establish a positive and collaborative relationship. We understand the importance of a strong foundation, and with parents as our equal partners, we work together to support our children in becoming confident, curious, and lifelong learners.

The pedagogy at The Shri Ram Wonder Years is centered on the guidance of expert mentors who act as facilitators, encouraging children to uncover their full potential in an environment that cultivates trust, love, care, security, and a sense of belonging.

Our core belief is that the most crucial objective for young learners is to foster the development of a strong self-concept, a vivid imagination, and a heightened social awareness.

At our pre-school, we firmly uphold the principle that the learning experience revolves around the child being at the center of all, with teachers serving as facilitators. It is the paramount responsibility of our educators to design and implement an inclusive curriculum and environment that caters to the unique characteristics of each individual child. Our pedagogical approach is tailored to accommodate the distinct needs and learning styles of each student.
